(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called Applicant to inform them that the claims would be in condition for allowance if claims 11-13, 15, 16, and, 38-45 were amended to read on polynucleotides encoding - - multiple epitope fusion polypeptides- - rather than "multiple epitopes fusion polypeptides " (to maintain consistency between the specification and the claims), and if claims 29-36 were amended to read on isolated cells to clarify that the host cells were not part of a human organism. The Applicant agreed to the amendments and indicated that an Examiner's Amendment making the suggested changes would be acceptable.
